   is excellent. He advised that none of the Plan’s he consults with have met their
   assumption this year. Mr. McCann advised the Board to consider rebalancing the
   fund, now that the Real Estate asset allocation has been added to the fund. Prior
   to this, the asset allocation determined by the investment policy was 60% in
   equities and 40% in fixed income. The Real Estate asset class is considered as
   an equity, so the other manager’s portfolios should be now be comprised of 56%
   equities and 40% fixed income. There was some discussion amongst the Board

   this discussion until all Board members can be present.
